Surface Installation

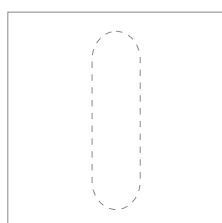

Suspension Installation

Recessed Installation

Easy to cut
Cutting to the required length can be done easily on site. No need for time consuming cutting back or bending back of copper conductors. No need for any special tools.

Mounting points
Surface track with pre-punched slotted holes every 333 mm (3~ track), and every 203 mm (1~ track). Slotted holes are 6 mm – 25 mm. Holes can be easily opened with a screwdriver or a similar tool.

WHITE

BLACK

Colours

Tracks are available in black and White.

Tracks are colour matched to components and adapters as close as possible.

TR4X /TR4R Series

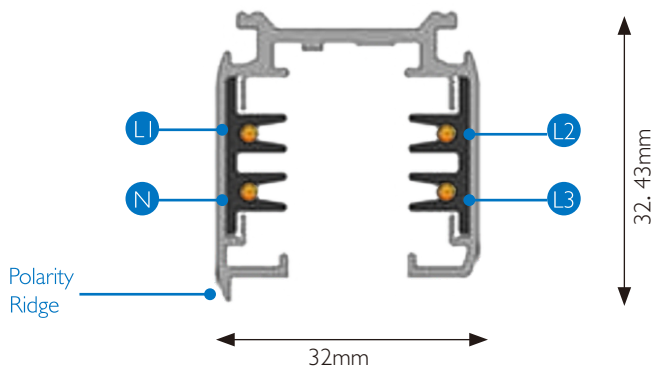

TR4 Series is the most sold three-circuit lighting track system in the world. It is the first choice of professionals and lighting manufacturers. Long experience and 100% quality assurance ensure problem-free operation.

Easy to extend

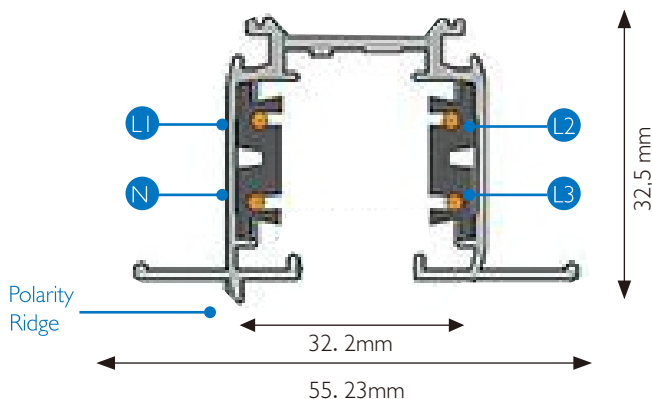

The modular structure of the system makes it easy to extend and adapt to various needs. Modular dimensions help the designers fit the system into an appropriate space and also make on-site mounting easier. Reliable connectors ensure fast and easy installation which saving overall cost .

TR6X /TR6R Series

TR6 Series is a lighting track system that including both normal input and wires for transmitting control signal to the light.

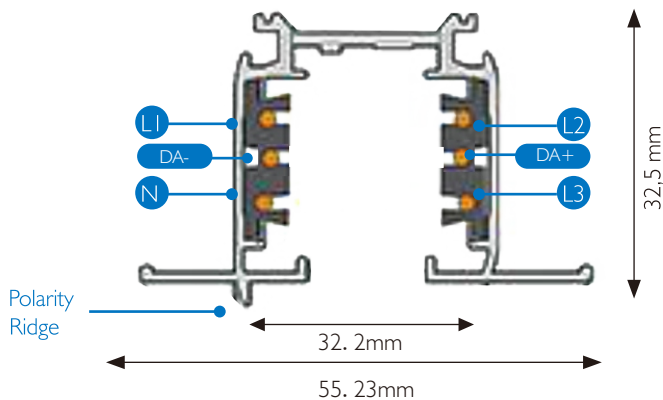

It makes it possible to use smart control systems like DALI / KNX / LON / EIB without extra units.

TR6X Surface

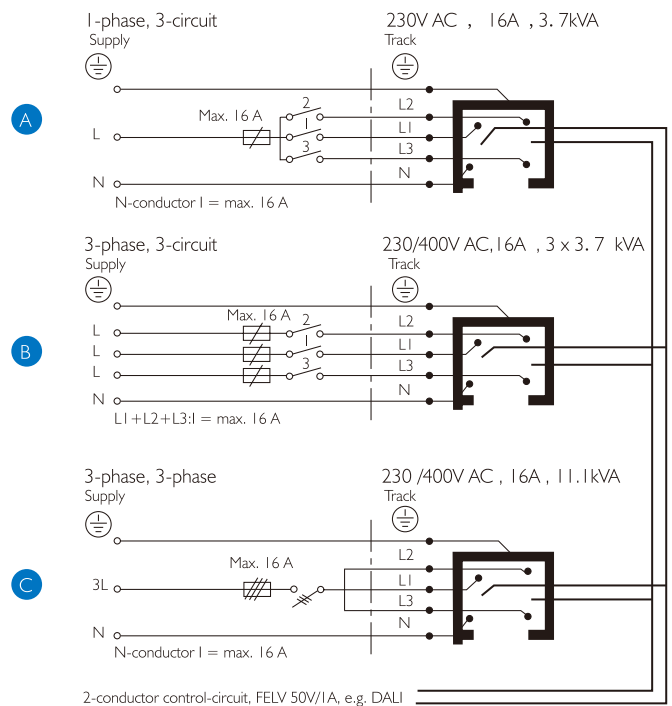

TR6R Recessed

6 wire 3 phase track system

Power Conductor Cross-Section: 4.0mm²
Control Conductor Cross-Section: 1.5mm²

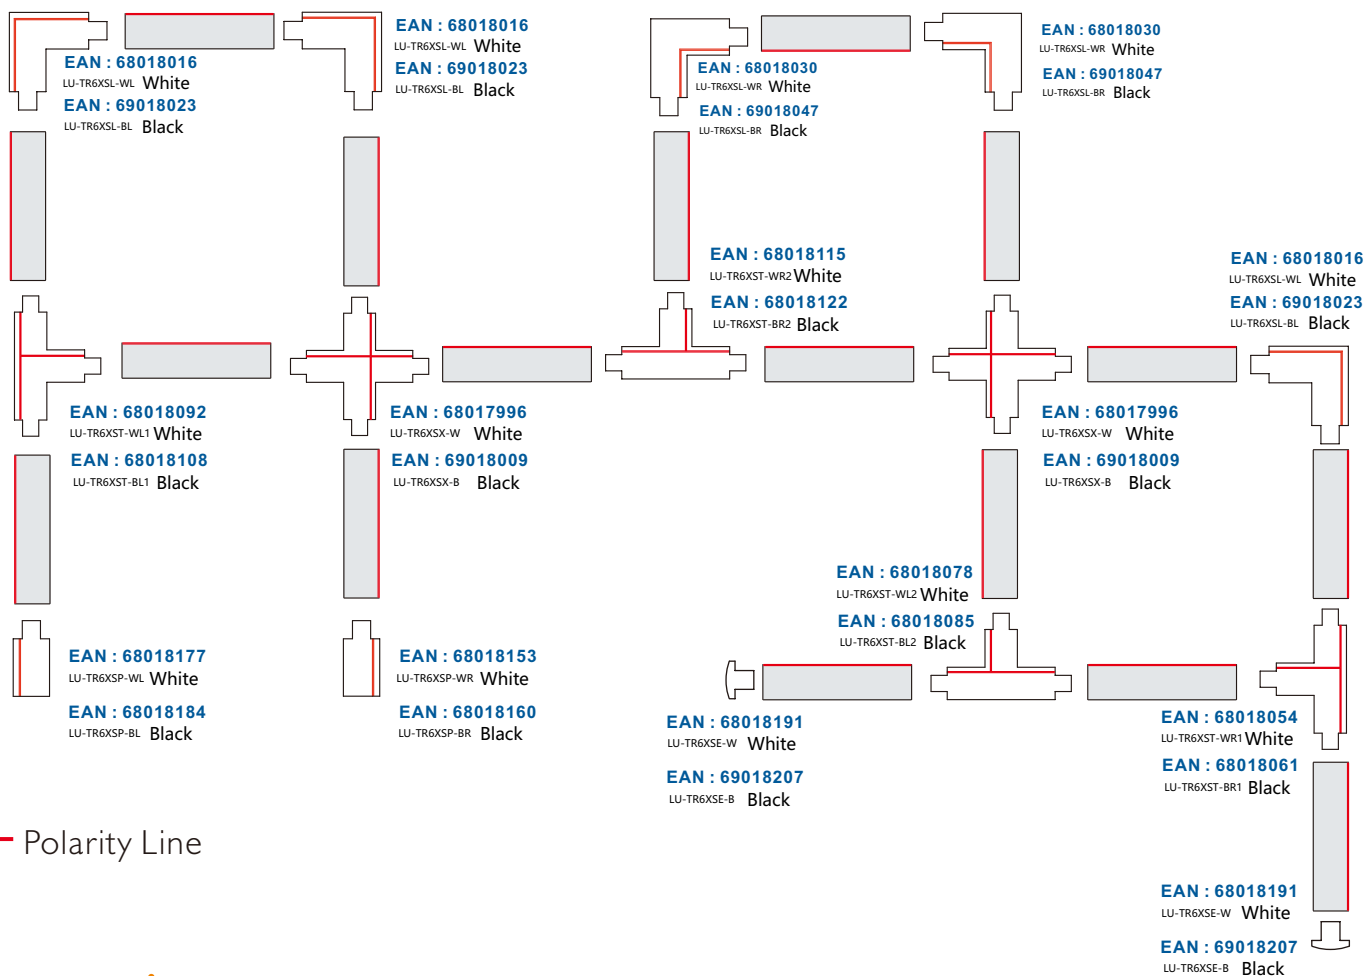

2-conductor control-circuit, FELV 50V/1A, e.g. DALI

Control conductors max 50V
